That music is beautiful. I don't know how you manage to make it sound like that, but you deserve an applause for that. I really enjoy your art. The tiles look nice too. The lighting is really cool. I like the different lighting colors too. The parts when the explosions happen are amazing. Also, the graphics are nice, and the characters and the story are beautiful. You even managed to add a background to your picture. This game looks very interesting and it's nice to see a game of this style. Like the music. It's nice and the unique character design is interesting. The game is really beautiful and I think you should make more games like this. I like the graphics and the style of the game. I didn't know you could add background to a picture. [b]Chef Warioow[/b] I don't know about you, but this makes me feel hungry. It's like eating a lot of steak with great taste. I love the music and the characters. I think you should have some more songs like this one. I wish you would make more songs like this. Nice work, and I hope you continue this. This is an amazing game! The graphics are really beautiful, and the animations are very creative. But the best thing about this game is the music. I love the unique and beautiful style of the music that you used. It's very good. You should make more

**What's new:**

Warz II Crystworld Warz II is a first-person shooter, platform game and adventure game developed and published by IllFonic for PlayStation 4, Microsoft Windows, and macOS. The game is the sequel to Crystworld Warz, with an overarching narrative based on the cartoon counterpart of the same name in the television series Dexter's Laboratory. The game was announced in 2012 as Crystworld Warz III. Gameplay In Crystworld Warz II, the player controls a scientist named Professor Young Wisdom and after defeating the Queen, who seeks to wipe out all of Rocknoid civilization, Dr. Flame falls captive to the queen and is able to teleport the adult science students from the base to Rocknoid Worlds leaving only the young students behind. During the course of the game, the player has to start off the base and work their way up to the queen. At the beginning of the game, Dr. Flame teaches the player about the queen. Dr. Flame explains that the scientist's dark side is evil and the game is meant to be an ideological battle between good and evil, good defeating evil, along with that the bad guys must be defeated to be recognized as evil, which the player originally destroys the Queen. The player then faces challenges involving defeating a rocknoid and after the player defeats the rocknoid, they will face their counterpart from opposite dimension: The Queen's counterpart in the opposite dimension faces off against them. In order to disarm the queen and make off of the rocknoids, the player must equip special devices which are found inside rocknoids, including the Energy Grenade, which contains a destructive fire surrounded by a flame that, over time, starts its own engine. Plot The intro depicts the kidnapping of Dr. Frumeus and his absent-minded science students as they are about to be transported to other parts of the universe through hyper-time. However, the Queen tricks them into thinking she is trustworthy. The kidnap victims use the time machine in an attempt to rescue Dr. Frumeus, but do not die because of hyper-time paradox due to the speed of the time machine. As they make the machine faster, the Queen once again starts hounding them. Once they return to the cube-like base, Dr. Flame teleports it out of hyper-time, avoiding the Queen's attacks; however, the cube seems to be in an extra dimension and the Queen fails to capture it. The real Dr. Flame begins
