b) module 2 : Samsung Galaxy S6,Samsung Galaxy S6 Edge,Samsung Galaxy S7, Samsung Galaxy Note 7 (2017), Android 7.0, Nexus 6 (2013), Nexus 7 (2013), LG G2, HTC One M8/M9, LG G4, LG G5,Oppo R7, OnePlus 3/3T, Xiaomi POCO F1. The XDA Team or the SkipSoft Team will only add new modules to the unified toolkit as we have started working on module for Android 6 devices. This device was tested by me and working fine on my HTCx and Note 3. c) module 3 : Samsung Galaxy J7 J7 (2016),Samsung Galaxy Note 5,Samsung Galaxy J5, Iphone 6S and X, Motorola Moto Z, Xiaomi Mi Max 1, Xiaomi POCO F1 2, OnePlus 3, Lenovo Thinkpad Tablet etc. This module can add few other devices like YU Mi3, Mi4, Pi4, and OnePlus 3T to the toolkit. The Toolkit will import the modules from the external sd card as shown below image. You will find the SkipSoft modules in the main file manager and also in the external sd card. The skipsoft modules will install and show the user icon. Go to Nexus5\_advanced.exe Select the Advanced Data Options tab. Check the box which says, "Do not delete the data on the system". Uncheck the box which says, "Do not save the data on the system." Exit the Advanced Data Options tab. Start the Toolkit and the Toolkit should activate for Nexus 5 If you find this program useful PLEASE DONATE to your chosen device to get an activation code for the Pro version. You can also go ULTIMATE mode to unlock Pro features of every current/future device module. You will find the pro features very useful, get updates directly from the program and support future development. Without donations the Unified Android Toolkit can not continue.

---

## Skipsoft Android Toolkit Activation Code

The SPLITER tool can now be used on all of the new Android Oreo devices. It does not work on all devices but if the Note 3 or Galaxy S7 Edge won't work then it will on these devices. Support for these devices is limited to the PRO edition due to the lack of the Note 3 module in the Standard edition. I have finished the release for the Note 3 module for the unified Android Toolkit. This is the last module for the unified Android Toolkit so there are no updates to the toolkit for the remainder of 2016. Just one reminder: the Galaxy Note 3, that I have tested the kit on, is not supported by the Kit. The Kit does not support the Galaxy Note 2, Galaxy Note 3 (N9505) or Galaxy Tab 10.1 units. The Android app on my Nexus 7 2012 is working fine. A I want to do some more testing. For me this means you are ready. The Note 3 module for the Unified Android Toolkit completed. I have tested it on my N9005 and everything is working fine but it would be good to have a few more tests before it is released. Please email markskippingmail.com if you can test it today and I will send you the download link. The Note 3 module for the Unified Android Toolkit completed. I have tested it on my N9005 and everything is working fine but it would be good to have a few more tests before it is released. Please email markskippingmail.com if you can test it today and I will send you the download link. I have completed the release for the Note 3 module for the unified Android Toolkit.
