This version contains two upgrade codes, version 2.0 and 3.0. Most vehicles built before 2011 can also be registered with a navigation system. A database is required for this function. You will find the database on our website: carte.volvogroup.com. For vehicles built after 2011, the database is not present on the internet, but can be registered at Volvo dealers. Price will be about 25-30 EUR, depending on the vehicle. Volvo RTI MMM 2 - Europe Dvd navigation DVD 2019. In most of Europe, free map updates are available via the website of the navigation system. However, if you lose or damage your navigation system (e.g., theft), you have to download a new map update. Two map updates are sent regularly, referred to as major and minor updates. For the map update, the navigation system automatically has the latest version (see Volvo map updates). Therefore, it is not necessary to download and install a map update. However, you can always download a map update that is compatible with your navigation system from the website for your navigation system. There are map updates that are compatible with Volvo RTI 1022, 1022P, 1020, XC, XL, XE, XT, XS, XS Touring, XS-R, XS Touring AWD, XS-R AWD, and XC-R. The map updates are delivered to your navigation system by the navigation system manufacturer. 5ec8ef588b
